ABOUT THE COLLEGE

The 19th June 1972 is an important landmark in the annals of Tamil Evangelical Lutheran Church. Yes! a glorious institution of higher learning, Tranquebar Bishop Manikam Lutheran College came into existence on that day. The long cherished vision of the church was translated into reality with the establishment of this college. Tranquebar- Porayar had been the most backward rural area on eastern coast of TamilNadu predominantly inhabited by the Dalits, Fishermen and other backward communities who wallowed in utter poverty, illiteracy and social inequality. Hence the church accorded top priority to teaching ministry as part of their programme to uplift these oppressed and suppressed sections of the society and established primary, secondary and industrial schools. Subsequently the church realised the need for the establishment of a centre for higher learning. Hence the church rightly chose Porayar, a rural hamlet in the erstwhile Thanjavur District for starting its first higher educational institution. Late Rt. Rev. Dr. R. B. Manikam was the first Indian Bishop of the church. The college was named after him to, The College now offers thirteen Under-Graduate, eleven Post-Graduate, One PG Diploma Program, besides research programmes leading to M.Phil and Ph.D., The College has already established a great reputation for its high academic standards and attracts students from all over India and abroad. The college has been accredited with B+ Status by the National Assessment and Accreditation Council (NAAC) on 1st Oct 2002. Technicians, Educators, Researchers and Environmentalists contributing to our country's growth with the state-of-the-art infrastructure and periodically updated curriculum.

ABOUT THE DEPARTMENT

PG & Research Department of Chemistry was established in the year 1972 with Under Graduate course in Chemistry. Presently, it is one of the potential departments in the college, with a rich research. Culture and offering Undergraduate to Ph.D. in chemistry. A team of dedicated and efficient faculty members serves the department.

OUR VISION

To achieve and maintain high academic standards through sustained diligence and creativity in teaching, learning, research and extension work in an ambience of mutual, treat, love and respect and effect holistic development of our scholars.

OUR MISSION

To provide chemistry education par excellence for all sections of scholars at all levels catering to the requirements for such walks of life as Chemists, Technicians, Educators, Researchers and Environmentalists contributing to our country's growth with the state-of-the-art infrastructure and periodically updated curriculum.

TOPICS TO BE COVERED

Advanced Chemical Science
Advanced Physical Science
Environmental Science
Nano Science
Biotechnology & Pharmaceutical Science
Analytical Science
